Odessa, USSR The Odessa partisans who went underground in the fought the Nazi invaders by night were led by union members who organized along union lines to carry on their bitter fight.

BUY "BUDDY POPPIES"

On Friday, May 26th, "Buddy Poppies," which have been made by disabled and needy veterans, members of the Veterans of Foreign Wars, will be on sale on the streets of every city in California. These "Buddy Poppies" bear the insignia of the Veterans of Foreign Wars and also the union label.

These facts are called to your attention because poppies have been sold on occasions when there was a serious question as to whether they were really sponsored by the Veterans of Foreign Wars organization.

This "Buddy Poppy" sale annually affords us the opportunity of again manifesting a little appreciation, and a remembrance of the heroic deeds and the sacrifices that were made by these veterans in their courageous defense of the United States of America. The vast majority of the Veterans of Foreign Wars are union men. Every union man should deem it an honor to be privileged to buy and wear one of these poppies.

Fascist Paper Circulates in **Army Quarters**

Our Sunday Visitor, a weekly magazine which has earned the official approval of Hitler and was recommended to American fascists by Dr. Goebbels, is still being circulated by the thousands in all U.S. Army camps. This was disclosed by In fact, veekly newsletter edited by George Seldes. In addition to its circulation in army camps the weekly, which is published in Huntington, Ind., has a nationwide circulation of one million, Seldes said.

Of 12 native fascist newspapers and organizations indorsed by World Service, a Nazi propaganda sheet printed in this country, Our Sunday Visitor is the only one which has not been indicted or exposed as fascist, according to

"Back issues of Our Sunday Visitor reveal it has always been on the fascist side," In Fact said. "It earned being listed on the Nazi honor roll (along with Coughlin, the Chicago Tribune and most of the 30 now being tried for sedition) by frequently pointing out how preferable the Nazi system was to the Russian system. It has cheered for Mussolini. Today it has changed its tune somewhat, and concentrates on defending the fourth partner in the Hitler-Mussolini-Hirohito-Franco axis. . . . KNOCKS SOVIET ALLY

"The main change in the editorial policy of Our Sunday Visitor between 1939, when it favored fascism, and 1944, when America also is at war with fascism, is expressed in the March 5, 1944, issue when the Nazi system we are fighting and the Russian system, which is allied to the U.S., are denounced as equally abhorrent.'

A UNION TRIUMPH! Almost Half of Workers in U. S. Now Organized!

San Francisco, Calif.

The strength of the organized labor movement in the United States, in cold, hard figures, has recently been made public by the U.S. Department of Labor as the result of a survey made in January of this year by its Bureau of Labor Statistics. The potential strength of the labor movement, in terms of what it has accomplished

and will be able to accomplish in the future for its members, may be realized from the breakdown of these figures.

Approximately 13,750,000 work-Approximately 13,750,000 workers—nearly 45 per cent of all Labor's Stand on workers in private industry-were employed under the terms of union agreements last January. Inevitably, of course, the wages, hours and working conditions of the remaining 55 per cent of the labor force show, to a greater or lesser extent, the beneficial effect of the standards set by the unions during the decades of their unremitting struggle for better wages, the shorter workday and workweek, protection against industrial accidents and health hazards, and the

OUR NON-PARTISAN PARTIES

Ask any political spellbinder about it and he'll assure you that the traditional two-party system is the very soul and blood of American democracy, and that the issues of state and nation must be fought out on party lines. Yet tary flow of semen. Although that some years ago in California our Legislature voted to permit candidates to file on other party tickets-Democrats appearing on Republican ballots, and vice versa. Two Million Americans Suffer Constantly From Gonorrhea

More than two million of our people suffer constantly from gonorrhea. As fast as some are cured, others become infected.

Many persons have the idea that gonorrhea is a harmless disease, no worse than the common cold. It is much worse than the common cold, make no mistake about that!

You contract gonorrhea through sexual contact with an infected person or a carrier. You may take it by contacting mucous tissues with other objects containing the pus infection but this is rare.

Gonorrhea is as old as history. Galen, a Greek physician in the year 200 A.D. gave it the name GONORRHEA, meaning involunis incorrect, the name stuck.

Gonorrhea attacks human beings only, and is restricted to the mucous tissues, the joints, the lining of the heart, and the covering of the brain. It is characterized by a pus discharge, pain in the lower temperature.

Gonorrhea can be cured when recognized and treated in time. When it is neglected, or treated by self-medication, the symptoms may clear up temporarily, but they will return in the form of crippling arthritis, heart infection, or severe abdominal pain. In women, gonorrhea often causes permanent

81% Want Unconditional Surrender

Denver, Colorado A majority of Americans have crossed the word appeasement off their books, a survey by the National Opinion Research Center, University of Denver, showed recently.

Today 81 out of each 100 civilian adult Americans agree with Roosevelt, Churchill and Stalin that only on terms of unconditional surrender should the Allied commanders stop fighting on the European continent, the survey revealed.

Ten persons in each 100 think the Allies should be satisfied with something less than unconditional surrender. And one in each 100 would completely wipe out Germany as a country so that there will be no military or civil authority left to surrende and negotiate peace terms.

A really fair basis of representation would be in accordance with the number of votes cast for the popular body of representatives in its over 100,000 Alabama voters from legislature, congress, parliament or other law-making body-no popular vote, no membership in the League. They might possibly be given nonvoting membership-advisory only, like our territorial membership in Congress.

The Value of Co-operatives

One of the most effective controls of monopolies is through the producer co-operatives. Monopoly pressure induced the Office of Price Administration to try to prevent the payment of patronage dividends that is, the distribution of profits in accordance with the buying done by each member. The OPA started numerous court cases, charging that such dividends represented excess returns in violation of price control. It lost in every case.

Judge Schwellenbach, a former U. S. Senator, in the case of a co-operative dairy association, declared that "extension of the OPA's posi-tion would make a war casualty of the farmer co-operative system." He held that, so long as the ceiling price to the consumer was observed, patronage dividends were within existing law.

Muffing Our Chance in Italy

The Italian people are not supporting the British-American forces in the war in Italy. Many reports from authoritative sources indicate that our support of the big business, banking, cartel, nazi-fascist crowd has chilled the ardor of the anti-fascists. The J. P. Morgan interests are maneuvering for payment of \$60 million due from Mussolini, and many others are doing likewise.

"Newsweek" Magazine expresses the same idea thusly: Britain and the United States use royalty ties, capital investments, etc., to obtain (in Italy) the establishment of a government favorable to themsevies.

Schenectady, New York War worker victims of the snarled-up transit situation here are still laughing at this exchange of letters, taken directly from the files of the Schenectady Railway Co. and printed in Jack Brady's column, Between The Editions, in the Gloversville Morning Herald. The letters tell the story:

Yours very truly, HENRY BLANK

(real name withheld) The company replied: We received your letter of the 1st and believe that you are somewhat confused in your history. The only transportation 1,000 years ago was on foot.

Reply from the disgruntled rider: I am in receipt of your letter of the 18th and think you are the ones confused in your history. TOBIN SOCKS

Philadelphia, Penn. Pres. Daniel J. Tobin of the International Brotherhood Teamsters, largest AFL affiliate, has voiced his disagreement with Pres. William Green's indorse ment of Sen. Gerald P. Nye (R. N.D.). Rep. Martin Dies (D., Tex.) and Rep. Stephen Day (R., Ill.) for re-election to Congress.

Questioned by reporters at the end of the day's deliberations of the AFL executive council, which is meeting here, Tobin told them emphatically: "Senator Nye of North Dakota will never get my ndorsement. I have always considered him an isolationist."

In announcing his opposition to Nye, Day and Dies, Tobin was folowing similar actions already taken by AFL groups in the home territory of the three anti-administration congressmen. A stiff elecion battle is shaping up in North Dakota around the candidacy of Nye, with the non-Partisan League and the IBT in that state actively campaigning against the former America Firster and for election of Rep. Usher Burdick (R.), who has consistently voted with administration supporters on such issues as price control, subsidies and a federal ballot for servicemen.

Green's indorsement of the three congressmen was based on an official AFL list of legislative issues, which is reported to count favorably four votes for continuation of

mula, the Avery Formula is slick, smooth and subtle. It has five main features:

DELAY. The formula takes full THE VOTING advantage of the many delays which are allowed in the present Governmental machinery. Delay is BOOTH always advantageous to the company, often ruinous to the union. Through countless appeals, before knows, political action is what you and "Giggles and Groans" are the WLB, or the NLRB (National eat with, sleep with and breathe in Labor Relations Board), going into the air these days. So a union the courts, and back to the boards, the company can delay its dealings surprised as Policeman Robert J. with unions for months.

> Ward's record with the CIO union, which is told in detail further on, followed this single technique closely.

DEFIANCE. When further delay is impossible—when the WLB or NLRB has once handed down its final decision to the company to enter into collective bargaining with the union, the Avery Formula then calls for outright refusal by the company to comply. The company assumes the attitude, "Come and get us," and the only alternative for the WLB in its dealings with Ward's has been to refer the case to President Roosevelt.

Simple defiance is supplemented had an argument with his daughby legal actions challenging the ter with whom he lived, had taken authority of the Board. The value of such legal action to a company before, and had been "getting is that it sometimes takes a year, along since." And anyway the often longer, to run its course. And moral about registering to vote is a year is a long time in the life of a struggling young union.

The Avery Formula disposes of the contract by ignoring it. Company executives defy the provisions of the contract, refuse to settle grievances and offer a flat "no" to every request of the union.

DEFAMATION. A final phase of the Avery formula is to sue the union to death, to block freedom of expression in the union press As an example, Avery has filed a \$1,000,000 libel suit against the CIO union for articles in its weekly paper, The Spotlight, which cited instances of anti-labor practices and sweat-shop conditions in the Ward plants.
